

Profile

Backend-focused **MERN Stack Developer** with hands-on experience in building secure, scalable backend systems using **Node.js, Express.js, and MongoDB**, along with working knowledge of **React.js** for frontend integration. Proficient in **REST API development, JWT-based authentication, database modeling, and API-frontend integration**. Experienced in deploying full-stack applications and collaborating across frontend and backend workflows.

Professional Experience

Web Developer

Dwrko Technologies

12/2024 – Present

- Developed **backend REST APIs** using Node.js and Express.js
- Implemented **JWT authentication**, role-based access, and protected routes
- Designed and optimized **MongoDB schemas** using Mongoose
- Integrated backend APIs with **React.js frontend components** using Axios
- Handled async error handling, middleware logic, and API validations
- Deployed **MERN applications** on Render and AWS environments

Projects

My Portfolio

- Designed and developed a responsive personal portfolio showcasing skills, projects, and contact information and implemented dark/light mode

Social App

Sabir Social Vibe is a full-stack social media platform. It features secure JWT-based authentication (access & refresh tokens), user profiles with Cloudinary image uploads, posts, likes, comments, followers etc.

Mini Amazon

Developed a Mini Amazon Clone using React, featuring product listing, search, add-to-cart, and checkout functionality.

Github

Active GitHub profile with project repositories and clean commit history.
